

UPUTUSKRAE

- Tee põrandasse ava diameetriga **58.2 cm** (**HIVE Mini** kerise **puhul**) või **69.2 cm** (**HIVE** kerise **puhul**).
- Aseta kaared kerise ümber, et tekiks tervik-lik ring.
- Kinnita kaared poltidega nurkade külge.
- Kruvi nurgad lava külge. Valmis!

EMBEDDING FLANGE

- Make a circular cut with a diameter of **58.2 cm** (**for HIVE Mini** sauna heater)or **69.2 cm** (**for HIVE** sauna heater) to your floor for placing the embedding flange.
- Create a full circle by placing the embed-ding flange arcs around the heater.
- Fix the arcs to the angle irons using bolts and nuts.
- Fix the angle irons to the sauna floor and you are done!
