

Assure Powder PRESOAK DETERGENT FOR SILVER AND STAINLESS STEEL

Assure Powder is an innovative highly concentrated powder pre-soaking detergent that is effective for detarnishing silverware and stainless steel flatware. **Assure Powder** removes stubborn stains from cutlery and restores shine to silver utensils (cutlery, plates, tea pots etc.) by removing tarnish layers. Easy to dose. **Assure Powder** does not contain hazardous chemicals thus providing a safer environment for the cleaning staff.

- **Clean** - The powerful detergent action loosens even the toughest soil like dried-on food residues. Restores shine to silver cutlery and utensils.
- **Safe** - Its special formula is compatible with silver and stainless steel, preserving its value. Increased safety for the cleaning staff.
- **Efficient** - High performing formula ensures one-pass cleaning results and reduces overall warewashing costs.

USE INSTRUCTIONS

- 1 Check hygiene plan and product label for detailed use information.
- 2 Wear suitable protective clothing when handling the product.

For pre-soaking of stainless steel flatware, cutlery and other tableware

- 3a Fill pre-soak container with warm water (max. 45 °C). Dose **Assure Powder** to the required dosage (5-10 g/l).
- 4a Remove as much gross soil as possible before submerging utensils in pre-soak solution.
- 5a Add the utensils to the pre-soak solution. Leave it work for at least 5-10 minutes.
- 6a Remove from pre-soak solution, rinse well or machine wash. Also rinse the pre-soak container with water after usage. Renew pre-soak solution every shift depending on the soil level.

For detarnishing silver flatware and utensils

- 3b Place aluminium foil in the bottom of the pre-soak container. Fill it with warm water (max. 45 °C). Dose **Assure Powder** to the required dosage (5-10 g/l).
- 4b Remove as much gross soil as possible before submerging utensils in pre-soak solution.

- 5b Add the utensils to the pre-soak solution and make sure that all silver ware comes in direct contact with the aluminium foil. Leave it work until tarnish colours have disappeared from silver surface.
- 6b Remove from pre-soak solution, rinse well or machine wash. Also rinse the pre-soak container with water after usage.

SPECIAL NOTES / INFORMATION

For professional use only.

For metals and alloys different than silver or stainless steel always check material compatibility before use.

SAFETY

For further information and safety instructions, see product label and safety data sheet.

STORAGE CONDITIONS

Store between 0 and 40 °C in original closed container only.

PACK SIZE

6 x 2,4 kg
20 x 1 kg
