NINJA 6in1 Carbon Pole Kit – Performance and precision at the highest level

NINJA Carbon telescopic pole

Experience the NINJA Carbon telescopic pole. This innovative telescopic pole sets new standards in terms of control and efficiency and has been specially developed for professional window cleaners. With its ergonomic triangular shape, low weight and exceptional rigidity and stability, it offers maximum precision and comfort at work.

ErgoTec NINJA window squeegee

The ErgoTec NINJA series is made for professional glass and building cleaners who rely on advanced, high-quality tools. The high quality standards in the development of the ErgoTec Ninja tools mean that they stand out from standard tools for professional window cleaning. From the ergonomic handle to the NINJA aluminium channel to the soft rubber: UNGER has developed all components of the product range for extreme performance and durability. You too can benefit from the enormous efficiency of the ErgoTec NINJA window squeegee and clean larger areas in less time.

UNGER ErgoTec NINJA Washer

The advanced ErgoTec® NINJA Washer is a neat solution across the board. Multifunctional, ergonomic and equipped with a high performing sleeve. The durable ErgoTec® NINJA Washer T-Bar is made of strong yet lightweight hard anodised aluminium and features 180° swivel control with easy locking mechanism, perfect for pole work.

Unger ErgoTec NINJA MicroWipe

This professional quality cloth is made of highly absorbent, lint free microfibre, enabling you to clean or dry window frames and glass quickly, removing all traces of water for a streak free, high shine finish. ErgoTec NINJA MicroWipe features four unique scrubbing corners for spot cleaning – handy “pockets” of material with rows of abrasive looped fibres on the outside for removal of the stubborn stains and soft, kind-to-skin fabric on the inside. This cloth will not stretch or lose shape over time due to its high density weave of fabric and 5 mm wide overlocked edging.

NINJA Liquid

Window cleaning soap, liquid. Power formula with extended foam life.
